

Bowls England
Transgender Policy – Update

Issued: October 2020

We are proud of the intrinsically inclusive nature of our sport and our aim is to create an environment which is accessible and fair to all.

We will be consulting with a wide range of organisations to produce our trans inclusion guidance ahead of the 2021 season.

This guidance will be aimed at our clubs and designed to help them create a positive, inclusive and welcoming environment for trans people who wish to participate in our sport both socially and competitively.

The guidance will be widely available once complete.

Should you require more information at this stage, please e-mail: alistair@bowlsengland.com
