

2024 Aviva National Finals – Schedule and Potential Duplications

A great experience for players is key in what we do here at Bowls England. Over the last few months, a lot of work and consideration has gone into our Aviva National Finals schedule to alleviate clashes for players that qualify in multiple events, provide an exciting agenda of events, and a safe and inclusive environment.

Due to the large variety of events taking place over the course of the National Finals, potential clashes have always been a hurdle when organising the schedule. Our competitions review will minimise this further in future years by creating more differentiation between the competitions.

The 2024 schedule has been shaped to allow competitors the opportunity to compete in all Championship events, the blue riband events in our sport, and to limit the number of potential clashes for those who may qualify in our National Competition events.

National Championships (All Events)

All qualifying competitors will be able to participate in all rounds of the National Championships at the National Finals.

National Competitions

If there is a clash with your fixtures in the final stages of any National Competitions during the course of the event, you will be unable to play in all matches and substitutes will be required. In all team events, additional players from within the squad must be utilised.

Please see below a summary of all our National Competitions that could be affected by clashes and their associated risk levels – we strongly advise you to consume and understand this information before entering any National Competitions at bowlsenglandcomps.com
